

4007 \$4 Treasures of Luxor

How to play

1. Scratch the 'TREASURE NUMBERS' panel to reveal a number at a time (total of 18 numbers to be revealed).
2. Then in the 'TREASURE GRID' panel, scratch only the square with the number that exactly matches the number revealed in the 'TREASURE NUMBERS' panel. Either a symbol or arrow will be revealed in the 'TREASURE GRID' panel. A) If a symbol is revealed, repeat Steps 1 and 2. B) If an arrow is revealed, it will point in one of the following directions:
 - ← = go left
 - = go right
 - ↑ = go up
 - ↓ = go down
 - ↔ = go both ways
3. Scratch only the square the arrow is directly pointing to. For example, if an arrow pointing right is revealed (→) scratch only the next square directly to the right. If another arrow is revealed, repeat this Step (i.e. Step 2B).
4. If a symbol is revealed, repeat Steps 1 and 2.

**NOTE: When an arrow pointing both ways is revealed (↔), scratch only the next squares directly to the left and right of that arrow.

If you find the exact same symbol three times in the 'TREASURE GRID' panel by following Steps 1 and 2, you win the corresponding prize shown in the 'PRIZE LEGEND' for those symbols.

*NOTE: Double digit numbers appearing in the 'TREASURE NUMBERS' and 'TREASURE GRID' panels cannot be separated (i.e. '13' matches with '13' and cannot be separated into '1' and '3').
