

4178 \$3 Crossword Flowers

How to play

1. Scratch the YOUR LETTERS panel to reveal letter at a time (total of 20 letters to be revealed).
2. Scratch each letter in the CROSSWORD® panel that matches the letter revealed in the YOUR LETTERS panel.
3. Check how many “complete words” (explained below) are formed by the letters that have been revealed in the CROSSWORD® panel in step 2 above.
4. If there are three or more “complete words” in the CROSSWORD® panel, you win the corresponding prize shown in the PRIZE LEGEND.
5. The EXTRA WORD panel is a separate game. The EXTRA WORD panel does not form part of the CROSSWORD® panel to make up a prize listed in the CROSSWORD® PRIZE LEGEND. E.g. Revealing the EXTRA WORD and two words in the CROSSWORD® panel does not equal “3 words” in the CROSSWORD® PRIZE LEGEND.
6. Scratch each letter in the EXTRA WORD panel that matches a letter revealed in the YOUR LETTERS panel.
7. If you reveal all five letters in the EXTRA WORD panel, you win the EXTRA WORD PRIZE.

Requirements for a “complete word”

- A “complete word” must have a minimum of 3 letters.
- Letters combined to form a “complete word” must appear in an entire unbroken horizontal or vertical sequence in the CROSSWORD® panel (a “word space”).
- A “complete word” appears only in the CROSSWORD® panel and must occupy an entire “word space”.
- In this example. “CAB”, “BIN”, “CABIN” or “NET” are not a “complete word”. “CABINET” occupies the entire “word space” and forms the “complete word”.
- If there are letters in a “word space” that are not amongst the letters in the YOUR LETTERS panel then a ‘complete work’ cannot be formed in that ‘word space’.

Prize legend

- 3 WORDS = \$4
- 4 WORDS = \$10
- 5 WORDS = \$15
- 6 WORDS = \$40
- 7 WORDS = \$100
- 8 WORDS = \$1,500
